In addition to the above twenty-six towns from which these eighty-one routes radiate, the News has thirty-one other towns in a radius of fifty-five miles of Waco which the News reaches before 11 o'clock each morning, but reaches too late for the rural routes thereof. Navs and Pirates probably will be played off Sunday in a double-header. Waco visits the island no more this season and since the attendance at Galveston has been none too good the past few weeks, club owners doubtless figure that a double attraction Sunday will draw a large crowd. They may switch plans, however, and pull the bargain bill today. Galveston newspapers obligingly admit that Ellis Hardy's team looks the class of the league. Especially is Harvey Grubb lauded for his brilliant work at third base Thursday, when he helped Eddie Donalds beat Barfoot in a pitching duel by going out in the highways and hedges to grab all sorts of impossible chances. This is the way one scribe tells about Harv's stunts:

Harvey Grubb, the Greensboro Tarheel, did a neat job of third-basing for the occasion, strongly reminiscent of the best efforts of tow-headed Zinn Beck, now in the National league, but once an occupant of the same position.

BRADSTREET'S REVIEW.

NewYork, Aug. 11.—Bradstreet's togrow will say:
Neither poor wheat reports nor uncertainty about the outcome of mediation
between railway employes and managers
halt trade which proceeds at an unusually good pace. Indeed, the central
idea is that the outlook for fall is otherwise most encouraging: that lessened
cereal crop yields will be offset by high
prices: that export trade in most products is enormous and that buying power
having been so largely increased, a crop
to a comparative equanimity.
Trade in dry goods, clothing and shoes
has expanded in noteworthy degree and
the fact that road sales are growing satisfactorily suggests that interior distributors fear a goods famine in textiles

From all present indications cotton pickers will be in liberal demand in another week, since cotton is maturing rapidly under fair weather. A few bales are coming in daily, but the rush has not yet begun. Farmers say they will need many cotton pickers in ten days, anyway, if not sooner. Pickers are expecting good wages this fall since cotton is back at a high notch. The staple is bringing four-teen cents a pound.
